The 4th World Congress on Integrated Computational Materials Engineering (ICME 2017) convenes leading researchers and practitioners of ICME to share the latest knowledge and advances in the discipline.

4th World Congress on Integrated Computational Materials

Materials science and engineering is a discipline that extends from the microscopic structure and properties of materials to the design and evaluation of materials in engineering systems.

Department of Materials Science and Engineering < Case

The interdisciplinary field of materials science, also commonly termed materials science and engineering is the design and discovery of new materials, particularly solids. ...

Thermodynamics and Statistical Mechanics: An Integrated

The cost of designing and developing a complex integrated circuit is quite high, normally in the multiple tens of millions of dollars. This only makes economic sense if production volume is high, so the non-recurring engineering (NRE) costs are spread across typically millions of production units.

Using chemistry and chemical engineering technologies, we perform research and evaluation services for industrial and government clients. Our scientists are pioneers in multiple chemistry fields including environmental engineering, chemical and process engineering, microencapsulation, polymer and material sciences, chemical demilitarization ...

JCTN publishes peer-reviewed research papers in all fundamental and applied research aspects of computational and theoretical nanoscience and nanotechnology and general mathematical procedures dealing with chemistry, physics, materials science, engineering, and biology/medicine.

Journal of Computational and Theoretical Nanoscience

Engineering seeks to create new processes, products, methods, materials, or systems that impact and are beneficial to our society. To enable its graduates to lead the advancement of technology, the Case School of Engineering offers thirteen degree programs at the undergraduate level (eleven engineering degrees, plus the BS in computer science ...
